

so will lead to red book cover frames when going to take your next quiz.

### Failing a Quiz

The purpose of M-Reader quizzes is to test whether or not you have actually read the book. So, if you've read the book then you should pass. But what happens if you fail? It is normal to fail one out of every twenty quizzes, but if you find yourself failing more than 10% of your quizzes, then you are probably reading at too high of a level. In that case, start reading books at a lower level until you gain more experience. Also, if you fail a quiz, talk with your teacher about it. He or she might be able to help you. If you do fail a quiz, don't worry too much because you have already done what is important about this whole process: read. So keep reading!

### Using Weekly Goals

Consistency is very important in extensive reading. You get the best results from reading in English on a day-to-day and week-to-week basis. It is far better to read 20 minutes a day for 7 days than it is to read 140 minutes in one day and nothing on the other 6 days.

One way M-Reader helps you to accomplish this is to give you weekly goals, based on your total semester word count goal. If you reach your weekly goals, then you will definitely reach your semester goal. Use the weekly goal bar to track your progress. If you reach your weekly goal, it will turn green, but if you fail to reach it, it will turn red. How many greens can you get?

Deadline	04/22	04/29	05/06	05/13	05/20	05/27	06/03	06/10
Words	11807	5381	12095	14745	5202	31129	0	0
Goal	7000	7000	7000	7000	7000	7000	7000	7000

### Reading to the Next Level

Extensive reading works best when you read at just the right level. If your level is too difficult, you you'll start noticing the English language too frequently due to not knowing

enough of the words and phrases. But if you read at the right level, you'll only see one or two words per page that you don't understand. This is perfect.

In order to help you stay focused on your level, M-Reader restricts you to your level and makes you read 10 books at your level in order to move up to the next level. It also allows you to read up to 3 books one level above your level if you feel like challenging yourself. So if you want to level up, you need to read more books. There is a level progress chart on the far right side of your student page showing how many books you have left to read before you can level up. Pay attention to it and challenge yourself.

### Using M-Reader to Stay Motivated

The more you read interesting, easy books, the more it will help your English improve. M-Reader encourages you to read more by showing you your progress in the form of book cover collections and a word count progress bar. As those grow each day and each week, it brings you closer to your language learning goals. There is also a 'share progress notifications to Facebook' feature, which allows you to share your progress with your Facebook friends. This is a great way to get encouragement from while striving to reach your reading goals.

Aaron Campbell has just reached the 10,000 level on MReader with this book. Aaron Campbell has 3 friend(s) with a higher achievement level and 4 friend(s) with a lower achievement level on MReader.org.

When you strive to read consistently with M-Reader to track your progress and encourage you to read more, you are not only improving your English, but you are also growing in world knowledge and developing a reading habit, which can bring greater wisdom and lifelong enjoyment.
